BARGAIN BOOK

**GENERAL
NURSERY
STOCK,
GLADIOLUS
& DAHLIAS**

MASTODON—The Perfect Everbearer

J. N. Rokely & Son
Bridgman, Michigan

AT YOUR SERVICE

In preparing this, our 19th Annual Catalog, we have striven to improve our list of offerings and our service to our customers and at the same time keep our prices within reach of all. We are sure you will find our prices most reasonable, our service most efficient, and our quality the highest you can buy.

J. N. Rokely

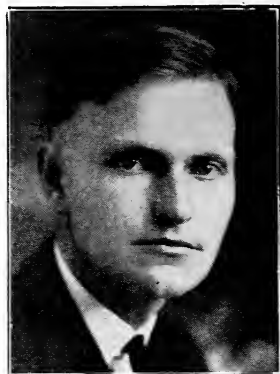

For forty years the name of Rokely has been associated with the growing of fruits and nursery stock here at Bridgman. This forty years' experience is your guarantee that we will give you the most for your money.

We hope to have the continued patronage of all our old customers and feel confident that our new customers will be highly pleased with the treatment we give them.

OUR GUARANTEE

We guarantee all nursery stock shipped by us to be strong, healthy, free from disease, full count, and true to name. We guarantee all nursery stock to be freshly dug, properly packed, and promptly shipped. We guarantee that all nursery stock shipped by express or parcel post will reach its destination in good growing condition. Any stock not as we claim will be replaced free of charge, or purchase price will be promptly refunded upon receipt of proper proof. It is mutually agreed, however, that in no case shall we be liable for more than the original purchase price of the stock. **ALL COMPLAINTS, except untruthfulness to name, MUST BE MADE WITHIN FIVE DAYS AFTER RECEIPT OF THE SHIPMENT OR SAME WILL NOT BE GIVEN CONSIDERATION.**

We wish it fully understood however, that we do not guarantee continued growth of any nursery stock sold by us. The welfare of plants, trees, shrubs, etc., is entirely dependent upon care, weather conditions, and other matters entirely beyond our control. Our liability, except as above noted, ends upon delivery of good live stock—the rest is up to you.

A. J. Rokely

CUSTOMERS, ATTENTION

SHIPPING SEASON—We begin shipping the last of March or first of April, according to season, and continue until about May 15th. We do not advise our customers to order stock shipped after this date. **WE MAKE SHIPMENT OF STRAWBERRY PLANTS IN THE SPRING ONLY.** Please do not order for late summer or fall shipment as we cannot furnish at that time.

TIME TO ORDER—Early. Make up your order and send to us soon as you receive this catalog. Your stock will then be delivered when you are ready to plant.

TERMS—Cash with order. However, if you prefer, you may send a small down payment with your order and the balance any time before you wish shipment made. Orders amounting to \$5.00 or more will be shipped C. O. D. providing 25 per cent of the amount is remitted with order.

REMIT BY—Personal Check, Express or Postoffice Money Order, Bank Draft, or Registered Letter. Never send currency in letter without registering as we can assume no liability for currency lost in unregistered letters.

REFERENCES—The Bridgman State Bank, Bridgman, Michigan; Farmers and Merchants National Bank, Benton Harbor, Michigan; the Postmaster, Express Agent, or any business house in Bridgman.

METHODS OF SHIPPING—For most orders express is the safest and, all things considered, the best way to have your plants shipped. All express orders are shipped charges collect. Many of our small orders are now shipped by Parcel Post and arrive in good shape. We do not recommend it for any but very small orders, however, as it is very expensive on large shipments.

Inquire from your Postmaster or Rural Carrier what zone you are in from Bridgman, Michigan. By referring to the following table you may then determine the amount of postage you must add to your order if you wish Parcel Post shipment.

For each \$1.00 worth of stock in your order, add for postage:

1st and 2nd zone	3rd	4th	5th	6th	7th	8th
\$0.10	\$0.15	\$0.20	\$0.25	\$0.30	\$0.35	\$0.40

Plants do not all weigh the same when packed for shipment and no table could prove absolutely correct. Always make a liberal allowance for postage **FOR WE WILL RETURN TO YOU EVERY CENT NOT USED.** If you prefer, we will ship your order by mail C. O. D. for exact postage required, and in all cases where no postage allowance is made we do ship C. O. D. for postage charges.

SPECIAL HOME ORCHARD BARGAIN NO. 4

The Apple and the Peach are the two most popular fruits with the average person. Every home owner can find space for a few fruit trees and we offer what we consider the six best varieties of Apple and Peach for home use. These trees are well rooted and thrifty and with good care will bear as soon as the larger trees. A real value.

Elberta Peach

- | | |
|---------------------------|----------------------------|
| 1 Yellow Transparent | 1 Delicious Apple (Winter) |
| 1 Apple (Summer) | 1 Rochester Peach (Early) |
| 1 J. H. Hale Peach (Early | 1 Elberta Peach (Midsea- |
| Midseason) | son) |
| 1 Wealthy Apple (Fall) | |

THESE 6 THRIFTY TREES, Apple 3-4 ft., Peach 2-3 ft., (Not Prepaid) for 98¢

SPECIAL CLIMBING ROSE COLLECTION BARGAIN NO. 11

Every home has some spot that can be greatly beautified by plant-

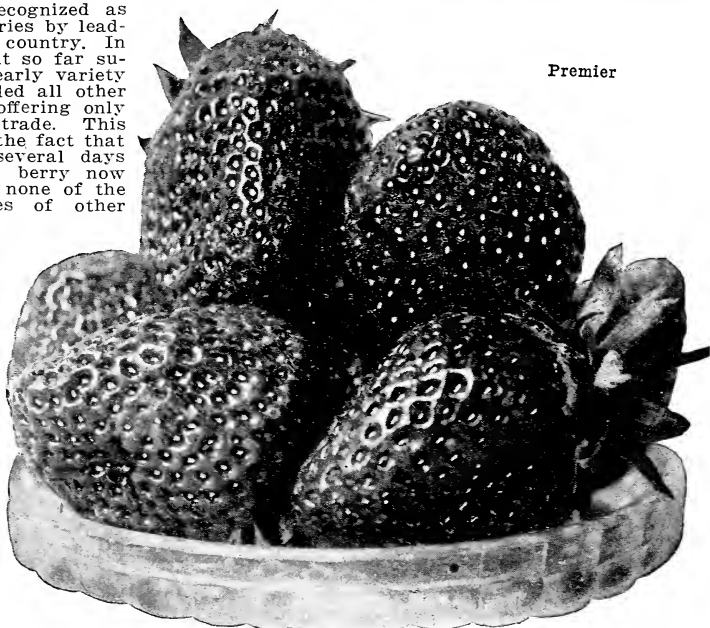

ing a few climbing roses. Swift-growing, they soon cover an unsightly spot, afford shade and privacy on your porch, or cover a trellis in your yard or garden. The varieties we offer in this collection are the leading varieties in this type of rose. Our special price on these climbers is exactly wholesale price. Remember, we fill your order with large, thrifty, 2 yr., No. 1 stock that will make a wonderful growth the first season. 1 Crimson Rambler (Red), 1 Paul's Scarlet Climber (Scarlet), 2 Dorothy Perkins (Pink)—

SPECIAL INTRODUCTORY PRICE 98¢
(Not Prepaid)

**Premier, Earliest Good Strawberry**

Premier is now recognized as the peer of early berries by leading growers over the country. In fact we have found it so far superior to any other early variety that we have discarded all other early kinds and are offering only the Premier to our trade. This superiority is due to the fact that the Premier is by several days the earliest ripening berry now grown and possesses none of the objectionable features of other early varieties such as poor color, green tips, small size, poor flavor and freezing of blossoms.

The blossoms of the Premier are so nearly frost proof that the danger of freezing is negligible. We have known Premier to withstand frosts that would entirely ruin the later varieties. The vines bear an enormous crop of large, uniform sized berries, while the berry is bright red clear to the center, is perfect in shape, and ripens without green tips. The fruit presents a very pleasing appearance on the market and possesses a flavor equal to the later varieties, which is very unusual in an early berry. Ripening a week to ten days ahead of other kinds, it matures the best part of its crop while prices are at the peak which spells profit to the grower. The plants are sturdy, healthy, and long rooted, making them drought resistant. The foliage is a beautiful dark green and very abundant.

Premier

Midseason Varieties

SENATOR DUNLAP

"KING OF THE CANNERS"

If you love shortcake, you will appreciate one made with Senator Dunlap, and a can of them during the winter months is a treat unsurpassed in firmness and rich flavor. Both the canning factory and the housewife demand this grand old variety on account of its splendid flavor and dark, rich, beautiful color. Dunlap has been the old standby for years and is still as largely grown as any other one variety. It produces wonderfully large crops of handsome dark red berries of the highest quality. It makes a profuse plant growth, and is so healthy and hardy that it does well in every section of the country. The plants are medium in size, hardy, long rooted, very prolific, and will hold their own under most any rough and tumble methods of cultivation. If allowed to grow unrestricted they will cover the ground with a mat of vines but for best results they should be kept down to a good sized fruiting row.

Senator
Dunlap

COOPER

After a thorough test in our own fields we can recommend Cooper highly to growers desiring an extra large and showy market berry. This variety makes a wonderfully thrifty growth of foliage, the plants standing erect and presenting a beautiful appearance on account of their great size. The fruit stems, which are protected by the foliage, are very stocky and erect and set an exceptionally heavy crop of berries. The berries are the largest we have ever seen, being two or three times as large as ordinary varieties, and have a rich, luscious flavor all their own. Commence ripening in midseason bearing an enormous crop of fruit. Berries ripen evenly without green tips.

GIBSON

The Gibson berry is a beautiful dark red clear to the center, of excellent quality and flavor, firm and will stand shipping as well as any variety we know. The plants yield an enormous crop of fruit, beginning to ripen with the Senator Dunlap and continuing over a long period. Unlike most varie-

ties the Gibson does not become small during the last picking but retain their large size and good quality to the last berry. The plants are long rooted and will withstand much dry weather. Foliage very rank, affording protection for blossoms and fruit, and is dark green in color. Fruit stems large and strong. Plants propagate freely and will make nice heavy picking rows.

DR. BURRILL

This variety which is known as "The Million Dollar Strawberry" was originated by Dr. Reasoner, of Urbana, Ill., who originated the famous Senator Dunlap. Dr. Burrill is claimed by the originator to be a scientific cross between the Senator Dunlap and Crescent. We have been observing this variety closely for several years and have concluded that the difference between the Dr. Burrill and Senator Dunlap is so slight, if any, that we are safe in calling them one and the same variety. However, we have kept our original strain of Dr. Burrill pure, and can furnish plants from this strain if desired. At any rate, whether you plant Dr. Burrill or Senator Dunlap, you are sure of getting a mighty good berry.

Gibson

Aroma, Standard Late Strawberry

Widely grown throughout the country, Aroma is the standard late variety. It is planted in large acreage for late market as it is extra firm and a splendid shipper. It produces a quantity of large berries, uniformly round in shape and deep glossy red in color. The plant is a hardy grower in any climate, producing healthy, dark green foliage. The berry has a pleasing aromatic flavor peculiar to this variety alone. It is a fancy berry and brings top market anywhere. For several years past we have been unable to supply the demand for Aroma but with increased acreage this year we hope to fill all orders. However, better order early and be sure of getting them.

OTHER LATE VARIETIES BRANDYWINE

A vigorous, perfect blooming plant; tall fruit stalks; broad, heavy, dark green foliage. Plants productive, having four and five stalks heavily loaded with large to very large berries. Medium red, somewhat like Gandy, only a little more dull; large yellow seeds on surface. Flesh red clear through, firm, somewhat acid, but with sprightly flavor; ripens medium to quite late. Does best on heavy loam or heavy clay.

GANDY

A profitable late variety greatly resembling the popular Aroma. It is one of the old standard varieties upon which you can depend. The berries are handsome, very large, well colored, uniform in shape, firm and a good shipper. Season very late. Plants are healthy, hardy and make a thrifty growth. Does best on heavy soils.

PEARL

Undoubtedly the latest June variety. In the north it does not come into its prime until the very last of June and early July. The fruit is large in size, dark red to the center, firm, and a good shipper. The prominent yellow seeds add to its attractive appearance. Flavor is excellent and is a heavy and sure cropper. When Pearl is at its best the other varieties are off the market so you cannot go wrong in adding Pearl to your list for an extra late berry.

Aroma

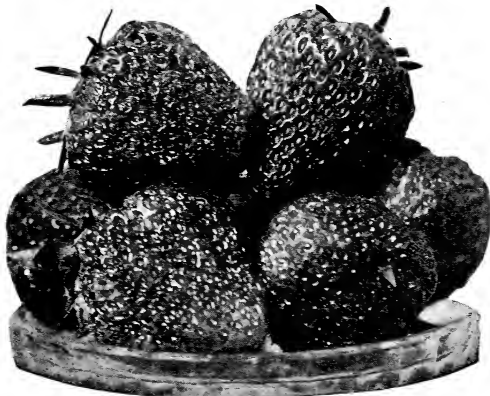

SAMPLE

A good medium late variety which is still a favorite with many growers. Berries large, regular and well flavored; color good and plants thrifty. A heavy producer. However the Sample is an imperfect flowering sort and in order to bear fruit must have some other medium to late variety planted every third row.

WM. BELT

This valuable variety is at its best in the middle and northern states. Berries very large and the first ones to ripen are inclined to the irregular or cox-combed in shape; later berries are uniformly conical. Their excellent flavor combined with their beautiful appearance make them one of our best late varieties and we recommend them highly. Plants are vigorous and thrifty, making just enough runners for a good fruiting row.

I have received my plants and am glad to tell you that I never had better plants. —H. E. Rigg, Weston, O. 4-18-29.

Brandywine

IMPORTANT TO PLANTERS

All varieties of strawberries we list, excepting Sample, are PERFECT FLOWERING. Perfect flowering varieties may be planted alone. The Sample must have some perfect flowering variety planted every third row.

Mastodon, Everbearing Strawberries

THE PERFECT EVERBEARER

Although Everbearing Strawberries have been grown quite extensively for many years, the Mastodon is so far superior to any of the Everbearing varieties yet introduced that it may rightly be termed the Perfect Everbearing.

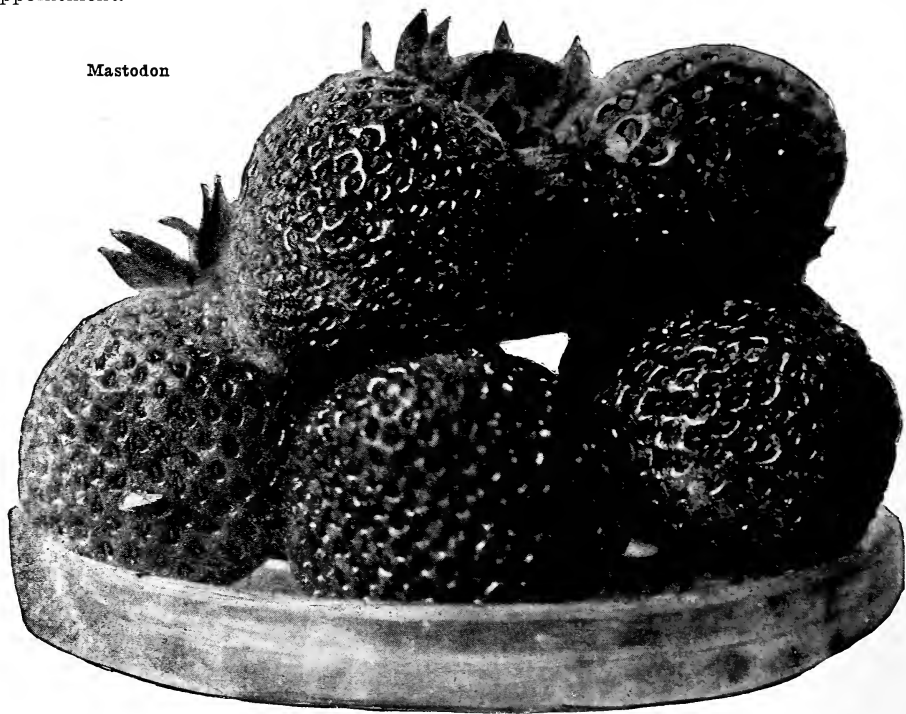

Mastodon berries are the largest of any known Everbearer. Not just a few, but all the berries, are fully twice the size of the average Everbearer. Neither do they become small during the latter part of the bearing season but retain their large size to the last berries. The berries are glossy red in color and with bright yellow seeds present a beautiful appearance. Firm flesh and tough skin make them an excellent shipper. Flavor is rich and good. More acid than the Champion.

The Mastodon plant is large and bushy with a thrifty foliage that protects the berries from hot suns as well as fall frosts. Unlike most Everbearers, the Mastodon is a prolific plant maker and under favorable conditions will cover the ground with plants the first season.

The Mastodon's spring crop of berries is fully equal in quantity and quality to the regular spring bearing varieties, something that can be said of no other Everbearer in existence.

After a thorough test in our own fields and the receipt of favorable reports from customers in all parts of the country we do not hesitate to state that the Mastodon Everbearer is a decided success. Send in your Mastodon order early and avoid disappointment.

Mastodon

Champion, Everbearing Strawberry

Until the introduction of the Mastodon, Champion was the leading Everbearer and is still preferred by many of our customers for home use as the flavor is very rich and pleasing and is less acid than the Mastodon. The Champion bears large quantities of medium sized berries, uniformly conical in shape, and a beautiful dark red to the center. They are one of the first berries to ripen in the spring and the fall crop is borne over a long period.

CHOICE RASPBERRIES

CUTHBERT

THE RICHEST FLAVORED RED

This is the leading late variety all over the country. The canes are very thrifty growers, upright in shape, light yellow in color, oblong in shape, and firm enough to stand shipping in pint boxes. Very productive. However, it is the flavor of the Cuthbert that gives it distinction. It is sweet, rich and luscious and surpasses all others for home use and canning. A great market sort and will stand shipping long distances. Both north and south.

CUMBERLAND

THE MOST PROFITABLE BLACKCAP

The most extensively grown variety of Black Caps. In this section they are planted almost exclusively for fruit. The berries are immense in size, firm and extra productive. Fruit is jet black in color, giving it a beautiful appearance in the crate and is of excellent quality. Canes are hardy, strong and vigorous, and will withstand most severe winters unharmed. We guarantee our Cumberland to be first class and true to name. They are all freshly dug in the spring and are not storage stock.

LATHAM

FAMOUS NEW RED RASPBERRY

A new Red Raspberry that is winning great merits wherever it is grown, its merits having spread throughout the Middle and Eastern states. The high yielding ability is due largely to its resistance to Mosaic and other raspberry diseases. Latham is a tall,

Latham Raspberries

vigorous grower, the canes are extra heavy, well able to support the tremendous load of fruit. The foliage is a healthy dark green, tough and leathery, highly resistant to insects. Latham ripens with Cuthbert and is immensely productive. Covers a longer fruiting season than any other Raspberry. The berries are beauties and will cause a sensation wherever shown. Color a dark, rich red, quality of the best with full raspberry flavor.

ELDORADO BLACKBERRIES

THE GREATEST BLACKBERRY UNDER CULTIVATION

Eldorado Blackberry

This is the finest blackberry grown. Its large size and delicious quality put it far in advance of other standard varieties. It is the hardest blackberry under cultivation and will withstand the northern climate uninjured. It is very productive and has not failed to ripen a crop since its introduction, so we have confidence in recommending it as far superior to anything we know of on the market. It has been cultivated twenty years and under careful tests at the experiment stations has never winter killed or failed to produce a full crop of the finest fruit. The canes are very vigorous and hardy, enduring the winter of the far northwest without injury, and their yield of fruit is enormous. The berries are large, jet black, borne in large clusters and ripen well together. They are large, sweet, melting and pleasing to the taste, have no hard core and keep four or five days after picking with quality unimpaired.

MEERSEREAU—Ripens a few days earlier than the Eldorado. Berries are large, flavor good, and ripen without a core. The canes are heavy and stocky and perfectly hardy. It is a deep rooting variety and is well adapted to light soils where plenty of moisture is lacking.

CHOICE GRAPES

When you plant a vineyard you invest in something permanent. You will receive a regular yearly income from it as long as you live. Practically all the cultivation is done by horse power and very little hand work is required. Returns per acre are high considering the amount of labor required to produce a crop. Grapes are being planted extensively in all sections of the country and an ever expanding market creates a demand far ahead of the supply. Plant a vineyard of our Concord plants this spring and cash in on this opportunity for pleasant, profitable fruit growing.

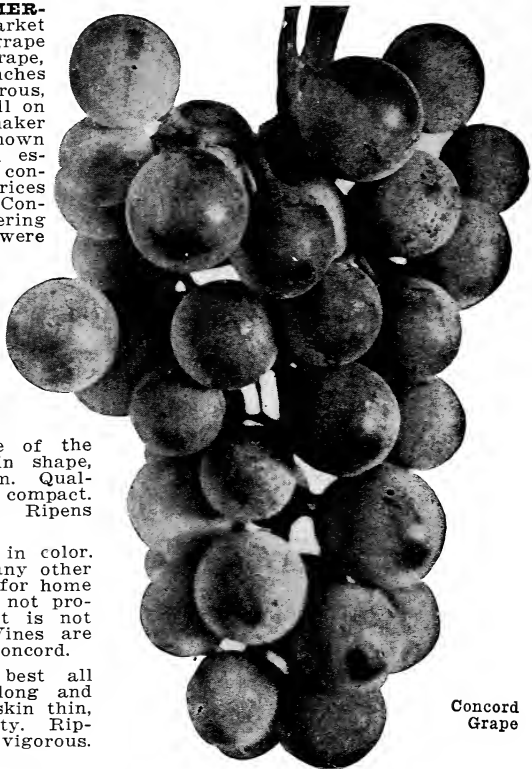

CONCORD, THE STANDARD COMMERCIAL GRAPE—The fine old popular market variety and the leading commercial grape of today. A large, purplish black grape, very hardy and productive. The bunches are large and well filled and vines vigorous, hardy and free from disease. Does well on any soil and is the biggest money maker in grapes. Is well and favorably known wherever grapes are sold and has an established reputation on the market. Is considered the standard by which grape prices are judged. We have a large stock of Concord in all grades this year and are offering them at bargain prices. These plants were all grown and graded under our personal supervision and we guarantee them to be exactly as represented and to be an exceptional value at the price asked.

MOORE'S EARLY—Very large and round. Color black with a blue bloom. Quality very fine and sweeter than Concord. They stand handling and shipping and have an established reputation on the market. Vines hardy and productive. Ripens early.

NIAGARA—The standard white grape of the country. Grape large, slightly oval in shape, pale yellow in color with a white bloom. Quality of the best. Bunches are large and compact. Vines vigorous, hardy and productive. Ripens with the Concord.

WORDEN—Large, round grape, black in color. Flesh has a fine flavor unequalled by any other grape; delicious and melting; excellent for home use and a good market variety. Does not produce so heavily as the Concord so it is not planted so extensively for market. Vines are thrifty and hardy. Ripens with the Concord.

CATAWBA—In our estimation the best all around red grape. Bunches large, long and shouldered. Berries are medium size, skin thin, flesh very tender, sweet and best quality. Ripens early and is very productive and vigorous.

Concord
Grape

Rhubarb or Pieplant

Coming on so early, Rhubarb finds a ready market, being relished by everyone. The city garden should have a dozen or more hills and every farm can add to its income by raising Rhubarb. It is easily produced in a commercial way, yields immensely, can be shipped almost any distance, and is easily gathered and packed.

MYATT'S LINNEAUS—Early, just before Asparagus; immense stalks, tender, delicious flavored; productive and continues long in use; the best variety for general use. Large, thrifty roots.

Myatt's Linneaus

Asparagus

Asparagus is a good crop to have in the home garden and can be made to yield large profits when planted for commercial use. It grows like a weed and is almost impossible to kill. Set the plants in the ground so the crowns are three to four inches under the surface and give decent cultivation. Plants should be planted about ten inches apart in the row with rows any convenient distance apart.

Note—Our 1 yr. old Asparagus roots are as large and thrifty as the 2 yr. grade sold by most firms. Experienced market gardeners will advise the planting of good thrifty 1 year roots rather than the 2 year.

MARTHA WASHINGTON—Developed by U. S. Dept. of Agriculture. A heavy yielding, pedigreed strain immune to rust; grows rapidly and produces uniformly long, tender shoots of unexcelled table quality.

The shrubs you sent me this year were the most sturdy lot I have received.—W. E. Colyer, Saranac Lake, N. Y. 6-1-29.

Hardy Northern Grown Fruit Trees

Our fruit trees are all healthy, thrifty stock, and quality and size have not been skimped to make a low price. We are listing the best and most popular varieties and are in position to furnish in large quantities to commercial growers. If interested in a large planting send us your list for special quotations.

Apples

PRICE—All varieties, 2 yr., 4 to 6 ft. trees, 35c each; 10 for \$3.00; 100 for \$25.00. Express only.

WALDWIN—Winter Apple. Large, roundish, dark red. Juicy, sub-acid. Good flavor, good cooker, good keeper. Tree vigorous and upright.

DELICIOUS—Grand champion of winter apples. Red with pin dots of yellow. Fine grain, crisp, juicy, almost sweet. Good keeper and sells high on any market. Our most popular variety.

JONATHAN—A grand, good winter apple. Bright, solid red. Flesh white, firm, fine, crisp and tender. Good size, smooth, roundish. Excellent eating apple.

GRIMES GOLDEN—Large sized, golden-yellow, winter apple with extra fine flavor and good keeping qualities. Rich sub-acid pear flavor. Bears young.

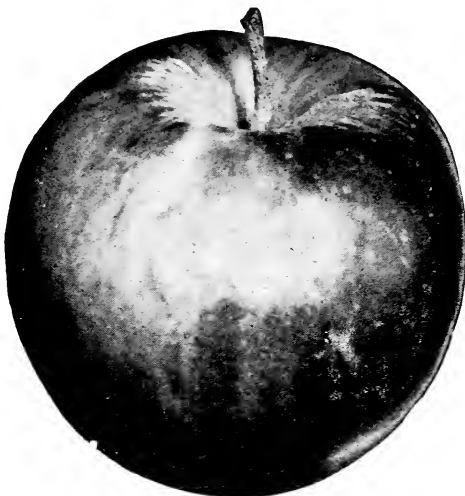

MCINTOSH RED—One of the very best early winter apples. Bright, deep red color. Flesh white, tender, juicy, with a rich, delicious and very distinctive flavor. Trees hardy, vigorous and healthy.

NORTHERN SPY—Large, pale yellow, skin mottled with carmine. Firm, tender, crisp, juicy, sub-acid. Popular everywhere. Good keeper.

STAYMAN'S WINESAP—Dark rich red striped with crimson. Flesh tinged with yellow; firm, crisp, fine grained, very juicy, sub-acid flavor. A good one. Winter variety.

TOLMAN SWEET—Yellow. One of the best sweet winter apples. December to March.

WEALTHY—Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality excellent.

Stayman Winesap

YELLOW TRANSPARENT—Fruit a clear yellowish-white. Begins to ripen in July. Excellent eating and cooking apple, and best market sort. Bears in 3 to 4 years. The leading summer apple.

HYSLOP CRAB—Best, most widely grown variety. Red, firm, juicy; excellent for home use. Always sells well.

Peaches

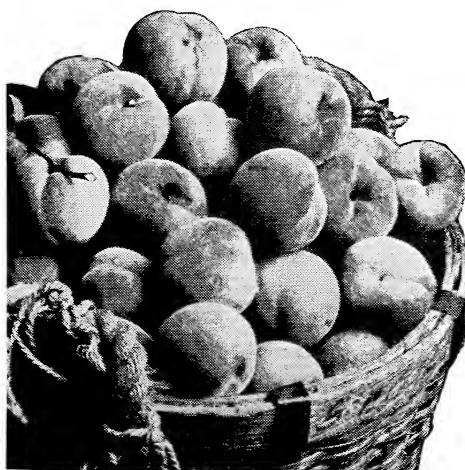

PRICE—All varieties, 1 yr., 4 to 6 ft. trees, 30c each; 10 for \$2.75; 100 for \$25.00. Express only.

ELBERTA—The standard market peach of the country. Very large, red blush; flesh yellow, tender, and juicy. Rank, vigorous grower. Freestone. Ripens middle of September.

J. H. HALE—Fruit extra large. Ripens about a week earlier than Elberta and averages a third larger in size. Color beautiful golden yellow with deep carmine blush. Flavor is extra fine.

ROCHESTER—First, large yellow freestone peach to ripen. Fruit sweet, juicy, and of delicious flavor. Excellent market or home use variety.

SOUTH HAVEN—New and very popular. Has all the good qualities of Elberta but ripens two weeks earlier. Very similar to Elberta in every way.

Elbertas

I thank you for the replacement bulbs you sent. Hereafter I am not afraid to send to you or recommend you.—Mrs. F. E. Debra, Warren, Ind. 5-18-29.

The 3,000 Grape Vines I ordered from you about four years ago are excellent and I thank you very much.—Chas. Knott, Braidwood, Ill. 4-15-29.

Cherries

PRICE—SOUE: 2 yr. 4 to 6 ft. trees, 50c each; 10 for \$4.50; 100 for \$40.00.

SWEET: 2 yr. 4 to 6 ft. trees, 60c each; 10 for \$5.00; 100 for \$45.00. Express only.

EARLY RICHMOND (Sour)—Best early cherry, much like Montmorency, except a little smaller and trifle more acid. A good standard sort. Bright red and juicy. Heavy bearer.

MONTMORENCY (Sour)—Large, late, heavy cropper of dark red cherries. Thick meat and juicy, yet the best shipper known. Its size and flavor as well as general appearance make it the leader everywhere as a main crop cherry.

BLACK TARTARIAN (Sweet)—Very large purplish black, heart shaped; flesh mild and sweet, and quality excellent. Good market sort and we recommend it as the best sweet for home use. Ripens in July.

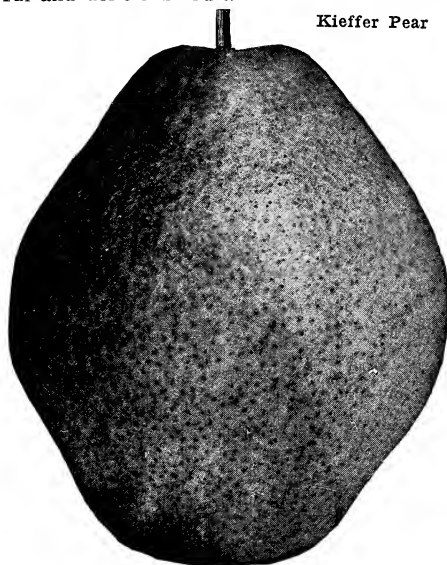

NAPOLEON (Sweet)—Fruit is very large, oblong, light lemon-yellow with a red cheek. Tree is medium sized and erect. A beautiful and delicious fruit.

Montmorency Cherry

SECKEL (Sugar Pear)—Small, very juicy and sweet. Popular for pickling and preserving. Claimed to be the best flavored pear grown.

Kieffer Pear

Pears

PRICE: All varieties, 2 yr., 4 to 6 ft. trees, 45c each; 10 for \$4.00; 100 for \$35.00. Express only.

BARTLETT—The leading commercial and home use pear. Big producer. Early; golden colored, sometimes with red cheek. Flavor is melting, rich and buttery. Good for any and every use. Ripens about first of September.

KIEFFER—Late fall and winter pear. Tree is hardy and almost entirely disease-resistant. Will grow and produce where other varieties will not survive. Fruit is large, greenish yellow. Quality not so good as Bartlett but is excellent if properly canned.

CLAPP'S FAVORITE—Ripens early August. A seedling of Bartlett but earlier ripening; somewhat larger; lemon yellow; of very good eating quality.

Plums

PRICE—All varieties, 2 yr. 4 to 6 ft trees, 35c each; 10 for \$3.00; 100 for \$25.00. Express only.

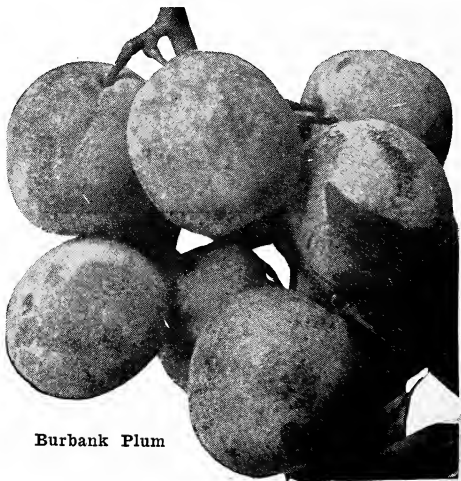

BRADSHAW—A splendid early. Large, dark violet red. Flesh yellow, juicy, good. Fine for canning.

BURBANK—Fruit large, oval, with reddish purple skin. Heavy yielder and very hardy. Good flavor; more acid than the Bradshaw.

GERMAN PRUNE—Old favorite. Fruit is long, oval, purple with a thick blue bloom. Flesh is firm, sweet and pleasant, separating freely from the stone.

YELLOW EGG—Golden yellow covered with thick bloom. Flesh golden yellow. Rather juicy. Tree large, very productive.

MONARCH—Late, large. Dark purplish blue; perfect freestone. Flesh is pale golden green and juicy. Heavy bearer and begins fruiting young.

Burbank Plum

HARDY ORNAMENTAL SHRUBS

SIZE—The shrubs offered herein are all heavy, thrifty 2-year-old stock, 18 to 24 inches high except where otherwise noted.

Althea (Rose of Sharon)

ALMOND 30c—Early spring flowering shrub whose flowers appear before the leaves. Flowers, double pink, snuggling tight to the twigs. Each 30c; 3 for 80c.

ALTHEA (Rose of Sharon) 20c—Handsome late summer blooming shrubs, coming into bloom when few shrubs are in flower. Large showy flowers. Colors: Double White, Double Red, Double Pink, Double Blue. State colors. Each 20c; 3 for 50c; 10 for \$1.50.

BARBERRY (Japanese) 20c—Probably the commonest and hardiest of hedge plants and also used for grouping in front of taller growing shrubs. It is a dwarf, compact shrub with many small leaves which change to colors, orange-red to bronze in the autumn. Bright red berries are also present

Deutzia, Pride of Rochester

and remain throughout the winter. Each, 20c; 3 for 50c; 10 for \$1.50.

BUDDLEIA (Butterfly Bush) 20c—This shrub, set out in spring, will mature to full size the first year. A single plant will show, the first season, as many as fifty flower spikes of beautiful lilac color. Both foliage and blooms very attractive. Perfectly hardy but semi-herbaceous. Each, 20c; 3 for 50c; 10 for \$1.50.

CORNUS (Red Dogwood) 20c—Has an upright spreading habit and slender bright red branches, which add a touch of color to the shrubbery during the winter. Has abundant small white blossoms borne in early summer. Each 20c; 3 for 50c; 10 for \$1.50.

DEUTZIA (Pride of Rochester) 20c—The best of the Deutzias; very vigorous growth; profuse bloomer. Produces large, double white flowers in June. Each 20c; 3 for 50c; 10 for \$1.50.

FORSYTHIA (Golden Bell) 20c—Beautiful early flowering shrub that produces golden yellow flowers before the leaves appear in the early spring. Each 20c; 3 for 50c; 10 for \$1.50.

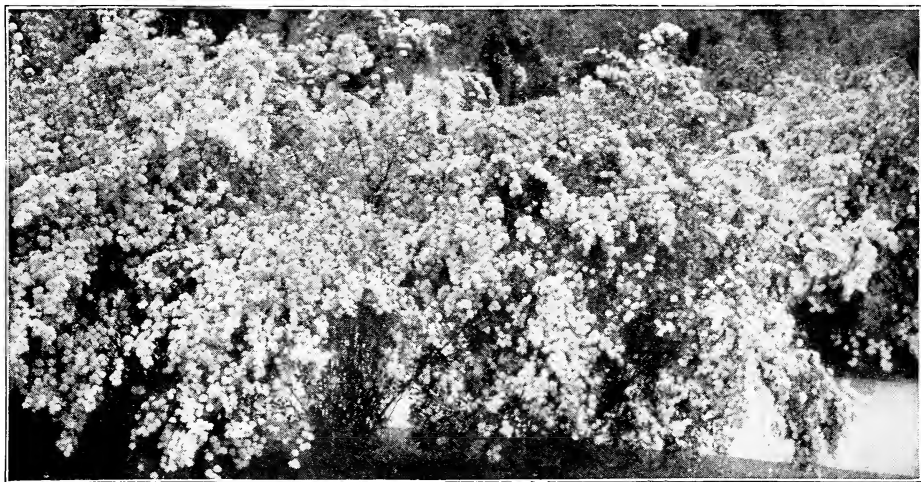

Hydrangea (P. G.)

HONEYSUCKLE (Tartarian) 25c—The finest and best known of all Bush Honeysuckles. Has upright, somewhat spreading branches and bright green foliage. The bright pink flowers are borne freely in May and June, followed by showy red berries. Each 25c; 3 for 65c.

HYDRANGEA ARBORESCENS (Hills of Snow) 30c—A pure white summer blooming hydrangea. Sometimes called Snowball Hydrangea. Pure white flowers are borne in pyramidal panicles 5 to 8 inches in diameter and 8 to 10 inches long. Each 30c; 3 for 80c; 10 for \$2.20.

HYDRANGEA PANICULATA GRANDIFLORA (PeeGee) 30c—The pink Hydrangea. Flowers in August and continues until frost, bearing immense panicles of bloom a foot long, white at first, turning to rose pink in autumn. The most popular of Hydrangeas. Each 30c; 3 for 75c; 10 for \$2.00.

Spirea Van Houttei

JAPANESE QUINCE 30c—A small spreading shrub, with spiny branches. Double crimson flowers in great profusion early in the spring. Foliage is a dark glossy green. It bears yellow fruits, resembling pears. **Each 30c; 3 for 80c.**

SPIREA ANTHONY WATERER 25c—A dwarf growing bush covered throughout the summer with large trusses of deep crimson flowers. Leaves bright green, often with variegations of yellow, with incised and serrate borders. **Each 25c; 3 for 65c; 10 for \$1.90.** This dwarf shrub furnished in 12 to 15 inch size.

SPIREA VAN HOUTTEI (Bridal Wreath) 15c—A leader among shrubs, and a beautiful ornament at all seasons. A round and graceful bush with arching branches, covered with white flowers in the spring. No doubt one of the most useful of all shrubs. 18 to 24 inch size, each 15c; 3 for 40c; 10 for \$1.15; 100 for \$9.00. 2 to 3 ft. size, each 22c; 3 for 55c; 10 for \$1.60; 100 for \$12.50.

Spirea Anthony Waterer

LILAC (Persian Purple) 40c—A thrifty growing bush with slender leaves and deep purple flowers. Flowers a little later than the common varieties but flowers last longer and are very fragrant. **Each 40c; 3 for \$1.05.**

PURPLE FRINGE (Smoke Tree) 75c—Conspicuous spreading shrub or small tree; overhung in mid-summer by mist-like clouds of tiny flowers. These billowing panicles of light lavender give the impression of smoke at a distance. One of the most beautiful of all large shrubs. **Each 75c; 3 for \$2.00.**

SHRUBS FOR SHADY PLACES

Weigelas
Snowberries

Lilac

I would say the order which you sent me a few days ago came in splendid condition and are all fine plants.—John H. Deaner, Harvard, Ill. 4-17-29.

Weigela Eva Rathke

SNOWBERRY, Red (Coralberry) 20c—A slender-branched upright shrub with very persistent foliage and purplish-red fruit that hangs on well into winter. Also known as Indian Currant. Flowers small and rose-colored. Each 20c; 3 for 50c; 10 for \$1.50.

SNOWBERRY, White (Common Snowberry) 20c—Small, rose colored flowers in June and July, followed by large clustered, milk-white fruits, which remain far into the winter. The combination of pink flowers and white berries on the same twig is charming. Each 20c; 3 for 50c; 10 for \$1.50.

SNOWBALL 45c—Common variety familiar to everyone. Flowers in early spring and usually can be picked by Decoration Day. Flowers are snow white and ball shaped. Each 45c; 3 for \$1.20.

SYRINGA (Mock Orange) 20c—Beautiful free flowering shrub with sweet scented white flowers with a creamy tinge. Flowers appear in May and June. Each 20c; 3 for 50c.

TAMARIX (Africana) 20c—Fine feathery foliage like that of Juniper. Delicate pink

flowers, borne profusely on graceful drooping branches, which have red bark. Hardy and will do well in the poorest, dry, sandy soil. Each 20c; 3 for 50c.

WEIGELA, Eva Rathke, 30c—Large, brilliant crimson flowers completely cover the whole plant during early summer, and continue to bloom on the new growth through the summer and autumn months. One of the newer, very popular Weigelas. Each 30c; 3 for 75c.

WEIGELA, Rosea, 20c—A May to July flowering shrub with stemless bell-shaped flowers set along the stems in clustered profusion. Bright rose shade. Each 20c; 3 for 50c.

Hedge Shrubs

AMOUR RIVER NORTH PRIVET—Will grow to ten feet in height, but may be pruned to any height and sheared to desired form. Branches are upright; foliage oval or oblong. Can be made very dense by pruning. Resembles California Privet, but very much harder. 25 for \$1.50; 50 for \$2.50; 100 for \$4.00. Size, 12 to 18 inch branch-d.

JAPANESE BARBERRY (Described above)
—Size 12 to 18 inch, branched. 25 for \$1.75; 50 for \$3.00; 100 for \$5.00.

SPIREA VAN HOUTTEI (Described above)
—Size, 12 to 18 inch, branched. 25 for \$1.75; 50 for \$3.00; 100 for \$5.00.

SHRUBS ARRANGED AS TO HEIGHT

Tall	Medium
Altheas	Butterfly Bush
Dogwood	Deutzia
Lilac	Forsythia
Honeysuckle	Hydrangeas
Mock Orange	Spiraea V. H.
Snowball	Snowberries
Purple Fringe	Weigelas
Tamarix	Japanese Quince
	Flowering Almond
	Small
	Japanese Barberry
	Spiraea A. W.

The replacement strawberry plants arrived this P. M. They are surely nice looking plants. I have no fear of these growing and want to thank you for a prompt and square deal.—Isaac Green, Pemberton, Ohio. 5-4-29.

Amour River North Privet

Select Beautiful Roses

All 2 Year No. 1 Grade

EVERBLOOMING HYBRID TEA ROSES

GRUSS AN TEPLITZ—The choicest of bright, vivid scarlet roses, shading to crimson. Flowers open loosely. Very fragrant. Hardy and strong, and blooms continuously until November. Each 50c; 3 for \$1.35.

MADAME CAROLINE TESTOUT—Extra large, fragrant blooms of brilliant pink with darker center. Edges of petals tinged with soft carmine pink. Very free blooming, and hardy. Each 50c; 3 for \$1.35.

MRS. AARON WARD—One of the few hardy yellow, monthly roses. Small, dainty flowers of Indian yellow, edge of petals being tinged with creamy-yellow and pink. Foliage bronze green. Plant is small, but strong and thrifty in growth. Each 60c; 3 for \$1.50.

General Jacqueminot

HARDY CLIMBING ROSES

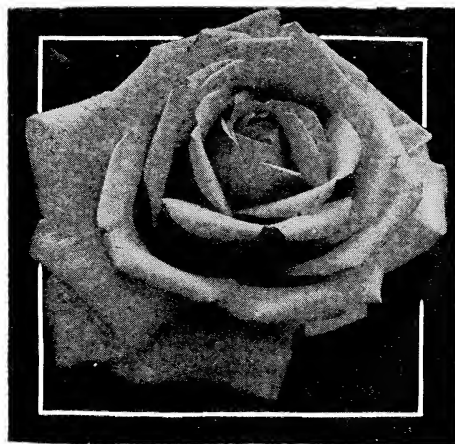

CRIMSON RAMBLER—Great masses of crimson, semi-double flowers are borne by these vigorous plants. Desirable pillar and porch plant. Each 30c; 3 for 80c.

DOROTHY PERKINS—One of the most notable climbing Roses. Clear cherry-pink, slightly fragrant; borne in great profusion and lasts a long time. Each 25c; 3 for 60c.

EXCELSA (Red Dorothy Perkins)—An intense crimson, with the edges of the petals a little lighter, produced in immense clusters. Foliage glossy. Each 30c; 3 for 80c.

PAUL'S SCARLET CLIMBER—A new rose of brilliant, vivid scarlet maintained without burning or bleaching until the petals fall. Semi-double flowers of medium size completely cover the vine. A most important addition to climbing roses. Each 40c; 3 for \$1.05.

WHITE DOROTHY PERKINS—Closely resembles Dorothy Perkins, except for its immense clusters of pure white flowers. The most valuable white climber of its class. Each 30c; 3 for 80c.

Paul Neyron

HARDY PERPETUAL OR JUNE ROSES

FRAU KARL DRUSCHKI (White American Beauty)—Really an ever-blooming variety, bearing a heavy crop of blossoms in June and from then, every month, until frost. The long pointed, egg-shaped buds open loosely into blossoms of pure white, with just a suggestion of pink, sometimes measuring 6 inches across. Each 45c; 3 for \$1.20.

GENERAL JACQUEMINOT—The favorite old "Jack" Rose, known and loved everywhere. Blossoms of a rich, velvety crimson with large petals. Blooms freely and grows well anywhere. Hardy. Each 45c; 3 for \$1.20.

PAUL NEYRON (Peony Rose)—The largest rose of all. Blossoms of clear pink shading to rose. Flowers are well-shaped, double and very fragrant. Plant is erect in habit and a strong, heavy grower, blooming repeatedly during the season. Each 45c; 3 for \$1.20.

ULRICH BRUNNER—A bright cherry-red rose of striking beauty. The flowers are unusually large. Hardy and vigorous. Almost continuously in bloom from early summer until autumn. Each 45c; 3 for \$1.20.

A Rose Hedge

HARDY PERENNIALS

Columbine

COREOPSIS (Tickseed) 18c—Very showy, with a daisy-like flower, low. Continuous bloomer. Each 18c; 3 for 45c; 10 for \$1.25.

DELPHINIUM (Larkspur) 18c—An excellent border plant. Remarkably free-flowering, beginning in May and continuing until late fall. Produces large, lovely, sky-blue flowers. Each 18c; 3 for 45c; 10 for \$1.25.

DIGITALIS PURPUREA (Common Foxglove) 21c—Various shades, purple to white. Tubular blossoms with spotted throats. Each 21c; 3 for 55c; 10 for \$1.45.

GALLIARDIA (Blanket Flower) 18c—Flowers of most gorgeous coloring. Center dark brown. Petals marked with brilliant crimson-orange and vermillion. Each 18c; 3 for 45c; 10 for \$1.25.

GYPSOPHILA (Baby's Breath) 18c—Large panicles of gracefully arranged small white flowers. Grows 2 to 3 feet tall. Each 18c; 3 for 45c; 10 for \$1.25.

Gaillardia

ASTERS 18c—Perennial Mixed. Unrivalled for their varying forms and bright colors in the perennial border. Easy to cultivate. Each 18c; 3 for 45c; 10 for \$1.25.

CANTERBERRY BELLS (Campanula) 18c—One of the finest Campanulas, with large, handsome blue, bell-shaped flowers. Each 18c; 3 for 45c; 10 for \$1.25.

CARNATION 24c—Color dark red. Flowers are large and double and closely resemble the forced carnation grown in greenhouses. Each 24c; 3 for 60c; 10 for \$1.60.

COLUMBINE (Aquilegia Canadensis) 18c—The wild columbine of our native woods. Red and yellow. Showy and free-flowering. Stems 1 to 2 feet. Each 18c; 3 for 45c; 10 for \$1.25.

Asters

TRITOMA GRANDIFLORA (Red Hot Poker) 18c—One of the most striking plants in cultivation, with pyramidal spikes of blazing red, tubular flowers, shading to salmon-rose at edge. Each 18c; 3 for 45c; 10 for \$1.25.

Plants arrived safe and am well pleased with same. Must say Gibson are real plants.—Harry F. Kelly, Celina, O. 5-12-29.

Phlox

HIBISCUS (Meehan's Mallow Marvels) 20c—A stately growing plant with large leaves. Perfectly hardy. Striking, showy flowers 6 to 8 inches across. Colors: Red, White or Pink. State color. Each 20c; 3 for 50c; 10 for \$1.40.

PHLOX 24c—This fine old hardy perennial is again fast gaining in popularity. We can furnish in Red, White, or Pink. State color. Each 24c; 3 for 60c; 10 for \$1.60.

SEASTA DAISY (Chrysanthemum Maximum) 15c—Free-flowering plant with large, showy, daisy-like white flowers with gold centers, 3 to 4 inches across. Blooms profusely during summer and autumn. Each 15c; 3 for 40c; 10 for \$1.00.

SWEET WILLIAM (Dianthus Barbatus) 15c—The well-known hardy Sweet William in many colors, blossoming throughout June and July. We offer a mixture with wide range of colors. Each 15c; 3 for 40c; 10 for \$1.00.

Delphinium

EVERGREEN TREES

(Express Shipment Only)

ARBOR VITAE, American—Pyramidal in shape; soft green foliage in Spring and Summer which changes to brown or bronze in winter. Rapid grower and fine for massing or hedges. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

ARBOR VITAE, Globe—Forms a dense, low globe; handsome shade of light green with grayish cast. Excellent for tub and window box use, as well as in the foreground of Evergreen groups. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

ARBOR VITAE, Pyramidal—Most compact and erect of the entire species, in form almost a counterpart of the Irish Juniper. Foliage a deep green, retaining color. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

FIR, Douglas—A very large and beautiful evergreen. It is entirely hardy and has dark green foliage, with a graceful pyramidal habit. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

JUNIPER, Irish—Erect, slender and formal in habit; foliage sage green, very compact; making a splendid column eventually 15 to 20 feet high. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

PINE, Scotch—A native of the British Islands. A fine, robust, rapid growing tree, with stout, erect shoots and silvery green

Attractive Evergreen Planting

foliage. Very hardy, valuable for shelter. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

SPRUCE, Colorado Blue—One of the hardiest and most beautiful of all the Spruces. Compact, upright, retaining its branches to the ground. Foliage of a light blue or sage color. Price, 10 to 12 in. size, each 75c; two or more at 60c each.

SPRUCE, Norway—Most widely cultivated of the Spruces. A large timber tree of rapid growth, with spreading branches and dark green foliage. One of the best hedge and wind-break trees, holding its lower branches well down against the ground. Price, 18 to 24 in. size, each \$1.25; two or more at \$1.00 each.

Hardy Climbing Vines

All 2 Year No. 1

BOSTON IVY, 40c—A grand hardy climbing vine. Clings firmly to the smoothest surface of rock or wood. The glossy leaves assume, in the fall, the most beautiful tints of scarlet and crimson. Each 40c; 3 for \$1.00.

CLEMATIS, Paniculata (Japanese Clematis) 35c—The finest small flowered Clematis. Rapid grower; flowers pure white, fragrant, and produced very freely in large clusters. Each 35c; 3 for 90c.

HONEYSUCKLE (Hall's Japanese) 25c—Pure white flowers, changing to yellow. Foliage remains green well into winter. Very fragrant and covered with flowers almost the entire season. Each 35c; 3 for 90c.

WISTERIA, Chinese Purple, 40c—Strong, rapid grower, desirable for trellises, porches, etc. The light purple flowers are very showy and are produced in long racemes. Perfectly hardy. Each 40c; 3 for \$1.00.

Clematis-Paniculata

VERY CHOICE DAHLIAS

Our Dahlia orders are filled with good thrifty divisions of field-grown clumps. We guarantee them true-to-name and free from disease. We are growing all the Dahlias we offer in this list. It will pay you in the purchase of Dahlias to buy direct from a grower who can supply his own stock as this lessens the chance of mistakes.

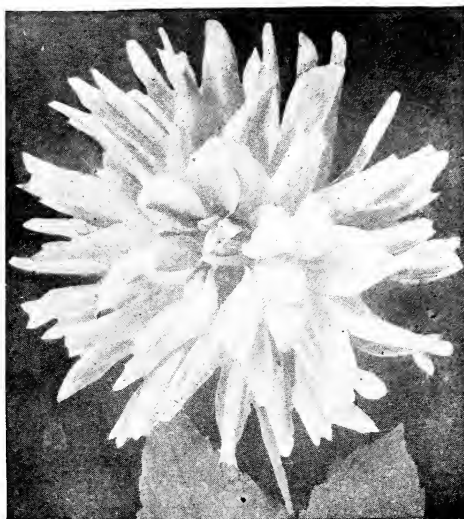

ALL DAHLIA PRICES ARE POSTPAID TO YOUR DOOR.

ROKELY'S SELECT GLADIOLI

Gladioli do their very best in a rich, sandy loam, but they will thrive in any soil except a very stiff clay. Bulbs should be planted during April and May depending on soil and climate. In planting, the rule is to plant each bulb at least three times the depth of its diameter, with the pointed side of the bulb up. We grow our own Gladioli Bulbs and your order will be filled with large bulbs, plump and healthy.

PRICES GIVEN HERE ARE POSTPAID—50 bulbs at the 100 rate; 6 at the dozen rate. However, only one variety can be used to secure dozen or 100 rate.

ALICE TIPLADY—Grand, large Primulinus of beautiful orange saffron. Each 6c; doz., 50c; 100, \$2.50.

AMERICA—Soft lavender pink. Large flowers. Long spikes. Each 6c; doz., 50c; 100, \$2.50.

ANNA EBERIUS—Dark velvety purple, throat deeper. Fine. Each 8c; doz., 60c; 100, \$3.50.

BARON J. HULOT—Rich velvety purple-blue. Tall spikes. Extra. Each, 8c; doz., 60c; 100, \$4.00.

CAPT. FRYATT—Extra bright red with white tracings in throat. Each 6c; doz., 50c; 100, \$2.50.

CRIMSON GLOW—Giant flowers of brilliant crimson. Tall spikes. Each 8c; doz., 60c; 100, \$3.00.

DR. W. VAN FLEET—Delicate rose pink deeper at edges. Throat soft creamy yellow. Each 8c; doz., 60c; 100, \$3.50.

E. J. SHAYLOR—Ruffled, beautiful, pure deep rose pink. Tall. Each 6c; doz., 50c; 100, \$3.00.

EVELYN KIRTLAND—Grand rose pink. Scarlet blotches on lower petals. Each, 8c; doz., 60c; 100, \$3.50.

GRETCHEN ZANG—Pink blending into scarlet on lower petals. Each, 6c; doz., 50c; 100, \$3.00.

HALLEY—Large open flowers of delicate salmon pink. Extra early. Each 6c; doz., 50c; 100, \$3.00.

Gretchen Zang

HERADA—Large pure mauve, glistening and clear. Unusually fine. Each 8c; doz., 60c; 100, \$3.00.

IDA VAN—Bright red. Rich and beautiful. Large flowers. Each 6c; doz., 50c; 100, \$3.00.

LE MARECHAL FOCH—Extra large, early, rose pink flowers. Each 6c; doz., 50c; 100, \$3.00.

LILY WHITE—Best early pure white. Large flowers, long spikes. Each 6c; doz., 50c; 100, \$3.00.

MAIDEN'S BLUSH—Exquisite pink Primulinus with lighter throat. Each 6c; doz., 50c; 100, \$2.50.

MARY FENNELL—Deep lilac shading paler. Soft primrose-yellow throat. Each 8c; doz., 60c; 100, \$3.00.

MRS. DR. NORTON—Soft La France pink with cream throat. Extra. Each 10c; doz., 75c; 100, \$4.00.

MRS. FRANCES KING—Erilliant vermilion-scarlet. Extra large. Each 6c; doz., 50c; 100, \$2.50.

MRS. FRANK PENDLETON—Salmon pink with maroon blotch on lower petals. Each 6c; doz., 50c; 100, \$2.50.

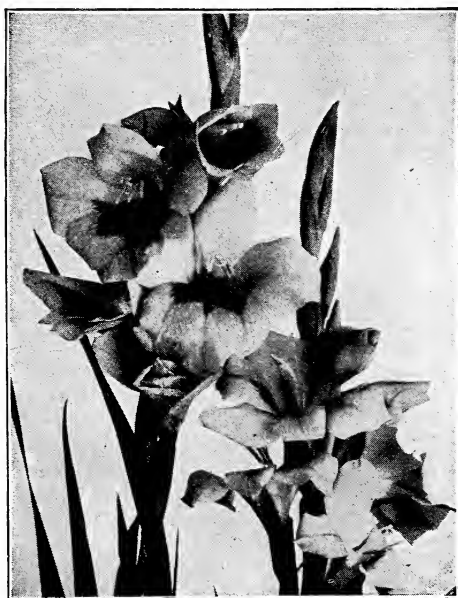

MRS. H. E. BOTHIN—Light geranium pink. Flame scarlet center. Each 6c; doz., 50c; 100, \$3.00.

MYRA—Primulinus. Salmon scarlet on yellow ground. Large and wax like. Each 6c; doz., 50c; 100, \$2.50.

NIAGARA—Delightful cream blending to canary yellow. Each 8c; doz., 60c; 100, \$4.00.

1910 ROSE—Pure deep rose pink. White center lines on lower petals. Each, 6c; doz., 50c; 100, \$2.50.

BERRY PLANT

Price List for 1930

F. O. B. BRIDGMAN, MICHIGAN

We are sure you will find our prices as low as any other firm selling the same high grade stock, and in nine out of ten cases they are lower. We will always meet any competitive prices for the same quality stock, but will not ship out poor stock in order to meet the competition of some firms who have nothing to recommend their stock except low price.

(NOTE: You may select 50 or 75 plants of a variety at the 100 rate and 500 or more of a variety at the thousand rate. Amounts between 100 and 200 of a variety at the 100 rate, between 200 and 300 of a variety at the 200 rate, etc. On Parcel Post shipments see page 2 for extra charges to cover postage).

OUR BARGAIN COUNTER

We offer this list of real bargains with the idea of encouraging a trial of our various lines, and we assure you that these are not makeshift bargains to unload a lot of under-size and worthless stock, but are genuine offers of the same standard of goods with which we supply our regular trade. Customers pay the express or parcel post charges except where price is quoted postpaid. If in doubt about amount of postage required, order stock sent C. O. D. for postage, or allow plenty for postage. We will return every cent not needed.

These Bargain Prices Are Net and Not Subject To Any Cash Discount for Early Orders
